

Strube presents new Head of Sales for Central Europe

In the course of a generation change, Ms. Kim Jana Dudenbostel will take on the position of Head of Sales for Central Europe at plant breeder Strube D&S GmbH. From January 1, 2022, she will succeed Dr Thomas Engels in this position.

At Strube D&S, the Central European Sales Management is repositioning itself on January 1st, 2022: Dr Thomas Engels, who has been with the Söllingen plant breeder and its predecessor company for 30 years, is handing over the management of Central Europe Sales to his previous deputy, Kim Jana Dudenbostel, and is retiring.

Both have been working successfully together for many years. After Ms. Dudenbostel completed her Master of Science degree at the University of Göttingen with a focus on agricultural sciences, she started her professional life at Strube and has now been with the company for 10 years. With her many years of experience in the agricultural sector and in sugar beet sales, she will coordinate the activities of Central Europe sales and shape it in its further development. "We are very pleased that we have found a suitable candidate to succeed Dr Engels within our own ranks. With Ms. Dudenbostel, we have the best prospect for a smooth transition. We wish Dr Engels all the best and thank him for his many years of commitment to our company," said Martin Reisige, Managing Director at Strube D&S.
