

Sugar beet

Clemens (primed seed)

Energy-Type

Key Strengths

- Suitable for early sowing
- Excellent establishment
- Highly stable under stress: Cercospera, drought and Virus Yellows

Plant Characteristics

Resistances / Tolerances	Resistance -
Type	Rizomania
Sugar Yield	Energy
Particularity	very high
	Suitable for early sowing
	Excellent establishment
	Highly stable under stress: CR, drought and VY
Year of registration	0

Date of harvest
